More value from residual materials

NBM BOLIDEN

Unique solution

Kim wants to win the championship.
He couldn't without metals.

Zn

Cu

Au

Ag

Young athletes dream big. But dreams can only come true when all the right conditions are in place. Sharp skates, lighting that lets you practice after school, a bus that takes you to the game. Steel constructions, such as hockey rinks, are often coated with zinc to make them last longer. A thin layer of zinc is enough to fight rust for over 50 years. Kim has what it takes, and so do our metals.
